**Serving families in
Dickey County, North Dakota**

Care is provided during
scheduled support blocks while
a parent or guardian remains
home.

**Warm, non-medical support
for the postpartum season.**

Care for Your Miracle

Gentle support for mom, baby,
and the first days home

**In-home postpartum
and infant support**

Is this support right for your family?

Care for Your Miracle may be
helpful when your family is
adjusting to life with a newborn
and could use a calm extra set
of hands.

- Recovering after birth
- Adjusting to life with a newborn
- Feeling overwhelmed or exhausted
- Needing help while a parent remains home
- Looking for calm, experienced infant support
- Wanting reassurance during the first days or weeks home

**Support centered on
mom and baby.**

Support for Mom and Baby

Care for Your Miracle gives families calm, practical help during the postpartum season.

- Newborn and infant care support
- Feeding and bottle-prep support
- Diapering, soothing, and comfort care
- Support while mom rests, showers, or recovers
- Gentle help with baby routines
- Emotional encouragement for new moms
- Extra support during scheduled care blocks
- Provides an extra set of hands so parents can rest, recover, or share special time with older siblings during the transition

About Nancy

My name is Nancy Robertson, and I'm the heart behind Care for Your Miracle.

As a mom of 7, I understand how beautiful, exhausting, and overwhelming the newborn and postpartum season can be. This is the kind of support I wish I had when I was having my own children - someone calm, caring, and experienced to offer reassurance, rest, and an extra set of hands.

I have years of experience caring for infants and children, including medically fragile children, NICU babies, foster care placements, and newborns needing extra patience and comfort. I have also worked as a CNA and owned a childcare business.

My goal is to help families feel supported, encouraged, and cared for at home during one of life's most precious transitions.

**Experienced, calm,
non-medical support
for mom and baby.**

What to Expect

- A gentle, respectful approach
- Support focused on mom and baby
- Care while a parent or guardian remains home
- Scheduled care blocks planned ahead of time
- Clear communication before care begins
- A calm extra set of hands when your family needs support
